

COP Tank  
with Cover

## Cleaning & Sanitation

### We share your commitment to product safety

We know you're committed to product safety. So are we. That's why we build equipment and offer products that meet or exceed industry standards.

#### CIP Systems

We design, manufacture and install custom stainless steel Clean-In-Place systems that meet your specific process needs.

- Single-tank, two-tank and multi-tank options
- Single, dual, triple or quad operation to clean multiple circuits simultaneously
- Capacities from 50 - 3,000+ gallons
- Heavy-duty box tube construction
- Wide variety of control options
- Multiple wash programs
- Feature Koss-built stainless steel U-tube heat exchangers
- Chemical supply pumps
- Meet or exceed USDA sanitary standards

3-Tank  
CIP System

#### COP Tanks

We build durable, stainless steel COP tanks in five standard sizes. Custom COP tanks and systems are also available. Designed and manufactured to stand up to decades of use.

- 4' long - 117 gallon - 5 HP pump
- 6' long - 140 gallon - 7.5 HP pump
- 8' long - 185 gallon - 7.5 HP pump
- 10' long - 231 gallon - 10 HP pump
- 12' long - 276 gallon - 15 HP pump
- 12 gauge 304 stainless steel
- Alfa Laval Solid C Series stainless steel pumps with motors
- Self-acting brass steam valves
- Stainless steel check valves
- Stainless steel capillary tube well
- Inline stainless steel steam injector
- Koss 3-A stainless steel equipment leveling feet
- Add covers, side jets, pumps, valves, motors, heating elements, control panels and more
- Meet or exceed USDA sanitary standards

4' COP Tank

We are a leading manufacturer of custom stainless steel processing equipment and a preferred provider of quality products and services to the dairy, food, beverage and other sanitary industries.

## Cleaning & Sanitation

### Sanitary Washers

Clean quickly and with confidence. Custom industrial sanitary washers in a variety of styles and configurations including tunnel and cabinet washers.

- No manual cleaning required, reducing labor
- Water and chemical use is controlled, reducing costs

### Tank Cleaning Equipment

Ensure high productivity and help maintain product integrity with effective tank cleaning solutions from Koss. Optimize every stage of your cleaning process for a significant impact on overall output and quality. We have a large selection of:

- Rotary jet and spray heads
- Spray balls
- Retractors
- Tank cleaning machines

Cabinet Washer

Tank Cleaning Devices

**We proudly carry Alfa Laval tank cleaning equipment.**

### Wash Baskets

Keep parts and components safe and organized while washing. We offer COP wash baskets in a variety of sizes and styles.

- Extra large parts baskets
- Fittings baskets
- Hanger-style baskets
- Small parts baskets
- Valve baskets

Wash Baskets

### Wash Racks

We custom build wash racks and carts that make cleaning easier and faster. These custom-built structures are designed to safely position and secure your part/equipment for washing.

- Auger wash racks/carts
- Wash and dry racks
- Meet or exceed USDA sanitary standards
