

Sanitary Pumps

Get the right pump for the right application

As an Alfa Laval Master Distributor and Pump SuperCenter, our pump experts are available to help you choose the right pump for the right application at competitive prices. And our large, in-stock selection means faster turn-around to quickly meet your needs.

Pumps account for 10% of global electricity consumption. Energy

use can vary significantly between different pumps in different processes. Save energy, enjoy fewer breakdowns, and reduce maintenance costs with expert guidance from Koss.

Our line of Alfa Laval pumps offers:

- High-performance
- Hygienic design
- Superior energy efficiency
- Superior safety and cleanliness
