

8' COP Tank

COP Tanks

Quality tanks for all Clean-Out-of-Place needs

We build durable, stainless steel COP tanks in five standard sizes. We also custom build tanks to your specifications. Whether standard or custom, each is designed and manufactured to stand up to decades of use and meets or exceeds USDA sanitary standards.

Standard COP tanks in five sizes

- 12 gauge 304 stainless steel construction
- 4' long - - 117 gallon - 5 HP pump
- 6' long - 140 gallon - 7.5 HP pump
- 8' long - 185 gallon - 7.5 HP pump
- 10' long - 231 gallon - 10 HP pump
- 12' long - 276 gallon - 15 HP pump
- 30" wide footprint x 41.5" high x 20" deep
- Alfa Laval Solid C Series pump with Baldor motor standard on most models

**Tough wash tanks
that offer an
increased resistance
to dings and dents.**

COP tank with covers and control panel

Customize it

Request a custom size or customize a standard tank with the following features:

Material: 12 gauge 316L stainless steel for even more corrosion resistance

Heat: Direct injection heat, Koss shell & tube heat exchanger or electric immersion heater

Heat Regulation: Self-acting brass steam valve or pneumatic steam throttling valve

Pump: Upgrade to Alfa Laval LKH model or customer specified

Motor: Customer specified

Insulation: Insulated tank option

Cleaning Nozzles: Configured to prevent tank wall fatigue and erosion

Drain Location: Center or end - has removable catch basket for quick and easy cleaning

Covers: Hinged covers with locking pins and handles
4' and 6' tanks = single cover
8' and larger tanks = split cover

Control Panels: Choose from HMIs, chart recorders and more

Agitation Manifolds: Single, double or custom placement

Hoists: Integrated hoist option

Footings: Koss 3-A Equipment Leveling Feet or casters

4' COP Tank

10' COP Tank

We are a leading manufacturer of custom stainless steel processing equipment and a preferred provider of quality products and services to the dairy, food, beverage and other sanitary industries.

COP Wash Baskets

Keep parts organized and safe while washing

Our Clean-Out-of-Place (COP) tanks handle a wide variety of disassembled process parts, including fittings, clamps, gaskets, hoses and pipes. To ensure thorough cleaning, to keep operators safe and to avoid damaged and lost pieces during the cleaning process, we offer a variety of stainless steel wash baskets available for firmly securing expensive and/or dangerous parts while washing.

Variety of sizes and styles

- Small parts baskets
- Fittings baskets
- Hanging baskets
- Valve baskets
- Extra large parts baskets
- All are 316L stainless steel

Stainless steel wash baskets keep components safe and secure.
