

## Koss 3-A Stainless Steel Equipment Leveling Jacks

### Raise, lower, level and tilt - no tools needed!

Our innovative new stainless steel leveling jacks make raising, lowering, leveling and tilting equipment easier than ever. Go from mobile to secure in no time at all ... no tools needed. Simply turn the handle and let the jack do the work.

**Hard-working and hygienic,  
Koss leveling jacks are 3-A symbol  
authorized and made in the USA.**

#### Koss 3-A Equipment Leveling Jacks features:

- 3-A symbol authorized
- Weld to equipment frame
- Easy-to-grip wheel handle
- Easily raise equipment off casters and lower back into place
- Quickly level equipment without additional tools
- Easily tilt equipment for better drainage
- Load weight of 1,610 lbs. per jack
- 304 stainless steel
- Sealed with O-ring elastomers
- No exposed threads
- Exterior polished to 25-32 Ra finish
- Won't damage flooring - jack rotates, foot does not

**Mobility** - raise jacks off floor so equipment is on casters.

**Security** - lower jacks to floor so equipment is stable and sitting on feet.

Adjust each jack to quickly level equipment or tilt for better drainage.
